WHO ARE WE ...?

Al-Qabas Oil Services Company Ltd. is one of the subsidiary companies of **Al-Qabas Economical Group**. It is a leading Iraqi private company in the Oil & Gas sector and was established in 1998 with full permission of the **IRAQI MINISTRY OF OIL** directly after the allowance to the private sector to work on the oil industry. Due to its high activity, special experience and efficient business relations **Al-Qabas Co.** became a well known name pointing to high quality, best management, perfect dealing and making one working team with all parties to finalize the projects and contracts.

Visions Of Al-Qabas

- - Keeping our leadership position in the Oil & Gas industry.
- - Continuous development of our experiences and capabilities.
- - Going through partnerships or joint ventures to enable the company to expand.
- - Keeping our priorities to submitting highest services with high performance levels.
- - Using up-to-date international technology in construction and supplying the latest invented equipments.
- -To go into detailed studies to help, support and find solutions to the oil production and oil refineries to improve the Oil & Gas sector and other public uses.
- - Joining the campaign of rehabilitation & reconstruction of the pipelines used for transporting crude oil, gas and oil products to the exporting terminals, generating plants and public use.
- - To develop environmental care for earth, water and air in Iraq helping oil companies to reach the international environmental standard.
- - Supporting the activities and studies in the sectors of Oil & Gas investments both in the upstream and downstream for new explorations and building

Core Activities

- Due to the wide range of the oil industry **Al-Qabas Co.** have focused at the beginning on the supplying of specialized equipments to the Iraqi Oil Ministry and its companies.
- The company already has finalized with its partners many successful contracts in this line despite the complicated situation of the country through the past years. Nevertheless, the company has kept looking to its main aim of building big Oil & Gas projects getting the benefit of its experienced engineers, technicians and consultants beside the logistic assistance of its sister companies of Al-Qabas Economical Group. To reach this target the company has completed its management, technical capabilities and on land perpetrations by performing the followings:
 - Construction of buildings, offices, stores, workshops and camps.
 - Erecting mechanical and electrical installations.
 - Construction of water and waste water treatment plants for industrial and potable water.
 - Preparation of well – site drilling yards and access roads.
 - Supply of various types of pipes.
 - Supply of main control systems.
 - Erection and construction of complete pumping station.
 - Line pipes laying for crude oil products, gas and water.
 - Supply of various petroleum equipments and materials to the Iraqi Oil Ministry and its companies beside managing the transportation, stocking, and unloading inside Iraq.

Oil Projects

- Due to the long time passed over the Iraqi oil industry without building new projects, getting new technologies or making real developments on all fields of activities it becomes an urgent necessity to establish many new big projects starting from exploring up to refining. Therefore, Al-Qabas Co. is planning to be excellent partner for both the clients and the suppliers to design and build complete running projects, benefiting from its accumulated experiences, efficient management and site implementation capabilities. It has also acted as a technical consultant to its clients whenever needed to upgrade the Iraqi oil projects to the international levels. In general, Al-Qabas Co. intends to participate strongly in the following aspects :

- **1. Refineries**

- The Iraqi Oil Ministry is planning to build many new refineries through the next five years on a (Turnkey) basis. Al-Qabas Co. intends to go into partnership with other companies which can design, supply, and supervise the construction of such refineries, as well as the training of the client staff members to run these projects. Al-Qabas Co. will cover the civil works, electrical & mechanical works and installation using the big construction capabilities of its sister companies in Al-Qabas Economical Group.

2. Gas Projects

Iraq contains some of the largest Natural Gas reservoirs in the world which most of them haven't been invested yet. Many plans were put to invest the Iraqi natural gas resources through new projects. These projects consist of drilling new production wells and installing complete facilities like gas separators, compressing stations, gathering grids, transportation nets, with all the necessary supporting equipments such as pumps, pipelines ... etc. The natural gas investment needs also wide range of downstream facilities like gas treatment plants, gas filling units, gas tanks, transporting trucks ...etc. Al-Qabas Co. is preparing itself to go strongly in this line of industry. It has already started making studies, contacting suppliers, and negotiating with partners and investor to create a high capability team to go in the march of the Iraqi gas industry development.

3. Pipes, Pipe Fittings & Piping

Most of the more than 25 years old pipelines in Iraq need to be replaced, developed or maintained, as well as constructing new pipelines. Al-Qabas Co. has got full experiences in supplying steel pipes and pipe fittings to the Iraqi Oil Ministry gained from executing & finalizing many successful contracts. More than 1200 km of pipes from different kinds and sizes were supplied to the Oil sector by the company. Moreover, thousands of kilometers of steel pipes are planned by the Oil Ministry to be supplied and lined within the next 5 years. Al-Qabas Co. is preparing itself to be the leader in implementing the pip lines projects with all the needed works like site preparations, river crossing, road-highway intersections, using its experiences in executing previous similar works.

4. **Supplying of Equipments & Materials to the Oil Sector.**

Al-Qabas Co. has already started working in supplying equipments and materials to all Iraqi oil companies. It has completed successfully many contracts of:

1. Supplying different types of construction equipments with their spare parts.
2. Electrical control systems, electrical power systems.
3. Erection equipments from international manufacturers and suppliers.

These contracts have developed the company's experiences in transportation, control, stocking, unloading and time managing. In the next coming years, it is expected that huge requirements for equipments and materials will take place and big supplying contracts will be signed due to the huge investments which will be spent to develop the Iraqi oil industry. Al-Qabas Co. expects to get many of these new supplying contracts which will add new successes to its record.

Our Projects

Al-Qabas Oil Services

Al-Qabas Oil Services

Al-Qabas Oil Services

Implemented Projects

No.	Project Name	Description of the project	Client
1	Supply of 12" x 60km ERW pipes	Supply of steel pipe (12" x 60km) for Basrah – Nasryah product line.	State Oil Projects Company
2	Supply of 12" x 60km ERW pipes	Supply of steel pipe (12" x 60km) for Anbar project.	State Oil Projects Company
3	Supply of pipes, fitting & valves NOC	Supply of different pipes (ERW, LSAW & SML), pipe fitting & valves	North Oil Company
4	Supply of electric cables	Supply of 48 KM of different size of electric cables.	North Refiners Company
5	Supply & installation of loading arms	Supply & installation of loading arms for Doura Refinery	Middle Refiners Company
6	Supplying & installation of two water EST	Supplying, installation and testing for two water elevated steel tanks of 1/4 & 1/2 MG in Wasset Governorate	Ministry of Municipality & public works
7	Supplying & installation of power transforms	Supplying & installation for 9 power transforms & control system for Samawa Electricity	Ministry of Electricity
8	Design & supplying control system & supplying cables	Design & supplying and installation for control system and supplying cables for North Gas Company	North Gas Company
9	Supplying, welding and testing of 14 inch ERW pipes	Supplying, welding and testing of 14 inch ERW – APIX.60 pipes of 83 KM for Nassirya project	Stat Oil Company
10	Design & supply of 7 LPG tanks for South Refineries Company Contract No.: 4865 /B	Design & supply of 7 LPG tanks of 200 m3 capacities.	South Refinery Company
11	Design, supply and installation of three Oily waste water to Baije Refinery. Contract No.: 2599	Design & supply for 3 Oily waste water each of 150 m3/day capacity for Seniya, Kisk and Haditha Refinery.	North Refinery Company

No.	Project Name	Description of the project	Client
12	Supply for pipes, fitting and valves. Contract No.: 5294-QR-02	Supply of line pipes, pipe fitting, valves and crossing materials for Al-Najaf Depot Project.	State Company for Oil Projects
13	Contract No.: 2088-QR-02	ERW Pipes, LSAW Pipes, fittings and accessories.	State Company for Oil Projects
14	Contract No.: 2172-QR-02	Supply of line pipes, pipe fitting, valves and crossing materials for Al-Najaf Refinery.	State Company for Oil Projects
15	Design & supply of 9 steel tanks of 25000 m ³ , 10 000 m ³ and 7000 m ³ Capacities for oil products. Contract No.: 4/2009	Design & supply of 9 steel tanks of 25000 m ³ , 10 000 m ³ and 7000 m ³ capacities for oil products.	South refinery company
16	Muftya water project. Contract No.: 24/2081-QR-01	Project under construction EPC project for design and supply all electro-mechanical equipments for two water project each of 22000 m ³ /day	State company for oil projects

Projects Under Final Studies

No.	Project Name	Description of the project	Client
1	Req. No. 5241/2008	Supply all electro mechanical equipment and design for oil products pump stations in cooperation with Rigel Sistemi Srl / and PEC / .	State Company for Oil Projects
2	Req. No.3512/2009 For Cooling Tower	Design, Supply & construction as EPC project for 10000 m ³ cooling tower with water treatment plant in cooperation with Rigel Sisemi Srl / and PEC / .	Midland Refineries Company
3	Req. No.5379/2008 Khor Al-Zobair Terminals Project	EPC project for oil products terminals and the scop of works is for supplying of 375 KM of steel pipes with 20 steel tanks of 20000 m ³ , 10000 m ³ and 5000 m ³ capacity and construction of two loading arms terminals.	State Company for Oil Projects

SISTER COMPANIES

AL-QABAS OIL SERVICES COMPANY

Al-Qabas Services has the following sister companies which support the company in all activities in oil and gas fields.

These sister companies are...

Al-Qabas Contracting Company Ltd.

A first class Iraqi construction company established in Baghdad on 1961 and considered as the mother company of the group.

The company is specialized in implementing water treatment plants, waste water treatment plants and oily water treatment plants on a "turnkey" basis, in addition to design and implement all civil construction buildings, roads, stores and other civil works. The company has its own construction machines and has a high technical staff. The company has now many projects under construction such as Babylon University buildings, **Hawija** water projects, while some other projects are on process of awarding.

Uranus Trading Agencies Company Ltd.

The company was established on 1989 in Baghdad and has a cooperation with many international manufacturer companies for steel pipes (SAW, ERW, LSAW and seamless pipes), pipe fittings manufacturers, steel tanks manufacturers and electrical equipments manufacturers.

Larsa For Engineering Consultations & Trade Co.

Larsa was established on 2002 in Jordan as an engineering Consultant and design company.

Larsa Working for all the civil & architectural design for the Iraqi Governmental projects especially in water and waste water plants.

Sumoh Baghdad Al-Khadra General Contracting LTD, CO.

Sumoh Baghdad Al-Khadra working in trading of equipments and spare parts for oil, gas, and refineries sectors.

The company has implemented many supplying contracts for tanks, pipes, fittings and valves in addition to other electrical equipments for the water & waste water sectors.

Sumoh Baghdad Al-Khadra working in the contracting filed as the subsidiary company to the sister company Al-Qabas Contracting Co. LTD.

Our Staff

ALQABAS has the following staffs:

1. Permanent staffs:
 - a. Engineers: Mechanical, Electrical, Control systems, petroleum Engineer and Civil engineers (36) Engineers.
 - b. Administrations : 18 persons.
 - c. Services: 21 persons.

2. Staffs for projects (on August-2012)

It depends on the number of projects under construction and implementation.

For time being staff for projects are:

- a. Engineers: 36 engineers.
- b. Technician: 16 persons.
- c. Workers: 212 persons.
- d. Guards: 20 persons.
- e. Drivers for trucks & machines : 155 persons

3. We signed a joint-venture agreement with Scientific & Engineering Consulting Bureau /University Of Technology.
